## Principal's Message

Dear Parents/Carers and students of Year 7,

The Year 7 Assessment Schedule Booklet is provided to assist you and your son with the planning of assessment tasks which will take place throughout the year. You will notice that the schedules contain:

- The number of formal tasks for the year
- A brief description of the type of task
- The outcomes assessed in the task
- The week of the term the task is due or will take place.

For each task the students will receive additional written details of the task and the specific date it is due. This will be given to students at least two weeks prior to the submission date.

Faculty head teachers and teachers have put together thorough assessment programs that reflect the NSW Education Standards Authority syllabuses and provide opportunities for students to excel in a variety of assessment tasks.

Despite our best intentions, it is possible, as with any large assessment program that changes may occur. Any change, if it does occur, is expected to be minor and ample forward notice will be given to the students involved.

Canterbury Boys High School is a school which places high expectations on school work and study, with all students expected to do their very best. Excellent learning habits established throughout the early years of secondary schooling will ensure students progress to maximise their potential.

Regards

Mr Ross Dummett

Principal

# Learning Habits

## **A student who is well prepared and organised:**

- attends class on time
- brings all necessary equipment to class, eg. PE gear, books, pens, and diary
- is organised and ready to start at the beginning of each lesson
- records homework, assessments and important dates
- wears correct uniform every day
- brings all notes on time, eg. late, absent, excursion.

## **A student who shows initiative and responsibility for their own learning:**

- asks questions and contributes to class discussions
- keeps up to date (class work, homework and assessments) by asking teacher for missed work after an absence
- is aware of upcoming tasks and events, eg. assignments
- manages time to ensure all work and homework is complete and on time
- prepares for exams and assessment tasks
- seeks assistance and advice from teachers, including the careers adviser, to be aware of career choices and course requirements
- keeps mobile phone out of sight and on silent during class time.
- looks after all school resources and equipment.

## **A student who works cooperatively in group situations:**

- is clear on the group task and its outcomes
- understands their assigned role
- shares group resources and equipment responsibly
- contributes by making suggestions and offering ideas
- encourages all members of the group to be involved
- listens to and respects the points of view of other people
- works cooperatively with the group to help complete the task.

## **A student who works independently:**

- stays on task
- is self-motivated and shows commitment to meet obligations
- identifies what is required and seeks to achieve it in a time-effective manner
- finds solutions for themselves using a variety of strategies
- strives to improve and consolidate their learning
- drafts, proofreads and edits work for improvement.

## **A student who reflects on and evaluates their own learning:**

- is clear about the purpose of learning
- asks questions to improve their understanding
- can identify high and low standards of work
- monitors their own learning progress
- learns from their mistakes and is receptive to feedback
- works out ways to improve their own learning
- can demonstrate what they have learned.

# Homework

Completing homework reinforces and consolidates the learning done in the classroom. Developing a routine for homework and study is essential to becoming an independent, self-directed learner. A regular routine may include:

- revising work done in lessons
- researching and writing assignments and projects
- active reading
- working on formal assessment tasks
- preparing for tests.

There is always homework to do! Besides subject-specific tasks, our Accelerated Reader program requires student to read each afternoon. Students are expected to allocate a minimum of 20 minutes to reading.

The following time allocation is a guide, with consideration given to the time students spend on other activities so that there is a balance between commitments.

- Year 7: 50 to 60 minutes per night

Students can help themselves by:	Parents can support their sons by:
<ul style="list-style-type: none"><li>• Writing down all details of homework they are set in their diaries</li><li>• Using the assessment schedule to plan and help manage their time</li><li>• Recoding due dates for tasks and assessments in their diaries</li><li>• Seeking help from teachers or parents if difficulties arise</li><li>• Ensuring their homework is completed to a high standard</li><li>• Developing an effective individual study timetable; and submitting assigned work punctually</li><li>• Using our Homework Centre, where a teacher is available to help with homework</li><li>• Not leaving work to the last minute!</li></ul>	<ul style="list-style-type: none"><li>• Taking an active interest and supporting the completion of homework</li><li>• Ensuring that there is time set aside for homework</li><li>• Providing a dedicated place and desk for homework and study</li><li>• Encouraging him to read and take an interest in current events</li><li>• Communicating with teachers any concerns regarding homework</li><li>• Ensuring he turns off electronic and gaming devices or other distractions while homework is being done</li></ul>

# Homework Centre

Canterbury Boys High School offers a Homework Centre available for all students from Years 7 – 12.

The Homework Centre runs every Monday and Thursday afternoon in the School Library from 3:30-4:45pm. The Homework Centre is free and supervised by a staff member. The Homework Centre is designed to assist those who need help with their homework or study.

Students may come and do their own study or homework. Students can use the Centre whenever they like – it is not a permanent commitment and students are not required to stay the full time.

The Homework Centre has the following objectives

- To assist students with their homework in a safe, quiet and monitored environment
- To promote personal responsibility for learning habits through the teaching of study skills and assistance with homework and assessment tasks,
- To promote to a wide range of students a positive attitude towards learning and a sense of belonging to a community of serious learners.

Students who need help with specific subjects can negotiate a time for their classroom teacher to support them at the Homework Centre.

# Assessment Policy and Procedures

Assessment provides students, parents and teachers with information about student achievement and progress in each course studied.

Canterbury Boys High School aims to provide students with:

- relevant and meaningful assessment tasks and learning activities
- formal and informal assessment and learning tasks to complete in each course
- clear and fair assessment procedures
- opportunities for success.

Formal assessment tasks:

- clearly and effectively assess appropriate outcomes
- allow students to demonstrate their level of achievement
- encourage deeper learning
- use an appropriate level of language, difficulty and time length
- include clear instructions outlining what is expected.

Formal assessment tasks are categorised by their formal notification process.

Written notification will be provided to students at least two weeks prior to the due date. For each task, the notification will set out::

- the task to be completed (a clear outline of the work to be completed)
- the date and time the task is due (e.g. Monday February 9, period 4)
- the mode of submission of the task (e.g. hand in to class teacher)
- the outcomes assessed
- marking schemes (except for class tests)
- any additional details (e.g. students will require calculators)

It is the student's responsibility to be aware of all formal assessment tasks. Not knowing about a task will not be accepted as an excuse for not attempting a task or for not doing well in a task. Therefore, if a student is absent, they need to check for any tasks that were distributed.

If a student believes they have a valid reason such as illness, accident or other unforeseen circumstances to request an extension of time to complete a formal assessment task, this must be negotiated by completing the "Years 7 – 8 Application for Extension/Misadventure" and submitting to the Head Teacher of the faculty. When possible, this must be done in advance of the due date. **See Appendix 1.**

# Assessment Policy and Procedures

## Attendance

Attendance in all timetabled classes is compulsory, especially on the day an assessment task is to be submitted or completed. Absence from school on the due date for the submission of an assessment task will not be regarded as satisfactory grounds for the granting of an extension of time. This will not be varied unless there are exceptional circumstances (and only after consultation with the appropriate Head Teacher of the subject).

Students are advised to complete all tasks to the best of their ability and advise their **class teacher immediately** if circumstances will prevent them from doing so.

If a student is absent on the day a formal assessment task is due to be completed or submitted, the student must follow these procedures on return to school.

- Report to the teacher who issued the task and submit a parental note explaining the absence.
- Negotiate a time to sit the task/alternate task OR submit the completed task

This procedure **MUST** be done by the first class back on return to school.

## Submission of tasks

Tasks submitted after the designated time are late unless there are exceptional circumstances. Non-submission of tasks by the designated time will result in:

- A mark deduction of 10% per day will apply to all late tasks (including weekends)  
All tasks must be satisfactorily completed and submitted, even if the task is awarded zero.

## Technology and assessment tasks

Technology failure is not a valid reason not to submit an assessment task. It is the responsibility of the student to back up all their work and to ensure that all reasonable steps are taken to prevent technology failure from affecting their ability to submit a task by the due date.

## Malpractice

All work presented in assessment tasks must be a student's own or must be acknowledged appropriately. Malpractice is any activity that allows students to gain an unfair advantage over other students.

**Malpractice, including plagiarism, will limit your marks for the task or examination, and will jeopardise your results.**

# English

Task Number	Task Description	Outcomes Assessed	Term/ Week
1	Drama and Performance  Group Performance and Reflective Writing	<ul style="list-style-type: none"> <li>• <b>EN4-RVL-01</b> uses a range of personal, creative and critical strategies to read texts that are complex in their ideas and construction</li> <li>• <b>EN4-ECB-01</b> uses processes of planning, monitoring, revising and reflecting to support and develop composition of texts</li> </ul>	Term 1  Week 10
2	Telling Stories  Multimodal Presentation	<ul style="list-style-type: none"> <li>• <b>EN4-URA-01</b> analyses how meaning is created through the use of and response to language forms, features and structures</li> <li>• <b>EN4-URB-01</b> examines and explains how texts represent ideas, experiences and values</li> </ul>	Term 2  Week 10
3	Page to Screen  Portfolio	<ul style="list-style-type: none"> <li>• <b>EN4-ECA-01</b> creates personal, creative and critical texts for a range of audiences by using linguistic and stylistic conventions of language to express ideas</li> <li>• <b>EN4-ECB-01</b> uses processes of planning, monitoring, revising and reflecting to support and develop composition of texts</li> </ul>	Term 3  Week 10

# Mathematics

Task Number	Task Description	Outcomes Assessed	Term/Week
1	Topic Testing	<ul style="list-style-type: none"> <li>• <b>MA4-INT-C-01</b> compares, orders and calculates with integers to solve problems.</li> </ul>	Term 1
