### MOBILE PHONES – OFF AND AWAY ALL DAY

Canterbury Boys High School supports the restrictions of mobile phones in accordance with the NSW Department of Education: Student Use of Mobile Phones in Schools policy. Mobile phone use in schools can impact student learning and wellbeing. Restricting mobile phone use at school aims to increase focus in classrooms, remove distractions and promote positive social interaction, while reducing the potential for online bullying. Canterbury Boys High School has strong teaching and learning practices to support students in the classroom using various forms of appropriate technology, which maximises the benefits and minimises the risks of digital environments and prepares students for life beyond school. We foster a safe learning environment which supports and enhances each child's social and emotional health through our wellbeing and learning support teams.

The Canterbury Boys High School community has elected to use the following approach: All mobile phones will be 'off and away' for the full school day, including recess and lunch, and all school-related activities. To purchase items from the canteen, cash or card is required. In some limited circumstances, use may be approved by a teacher or principal for an educational purpose only.

Should a student need to contact a parent or carer during the school day, they must approach the administration office and ask for permission to use the school's phone. During school hours, parents and carers are expected to only contact their children via the school office.

### NAPLAN

### NAPLAN - National Assessment Program Literacy & Numeracy

As children progress through their school years, it is very important that checks are made along the way to see how well they are learning the essential skills of reading, writing and mathematics – skills that will set them upon the path to success as adults.

NAPLAN is a point-in-time assessment that allows parents to see how their child is progressing in literacy and numeracy against the national standard and compared with their peers throughout Australia. At the classroom level, NAPLAN provides additional information to support teachers' professional judgement about student progress.
